

## Angel Outfitters No-Sew Hat Instructions

### Supplies:

- Stockinette tubing
- scissors
- narrow ribbon (1/8" - 1/4" width)
- measure tape/ruler
- embellishments (optional)
- small, clear hair elastics or clothespin (optional)
- fabric glue (optional)

*Tip: use ribbon colors that easily coordinate with a large variety of fabrics. (White, pale pink, baby blue, etc)*

- Cut stockinette to given lengths:
  - 2" width - cut 8"
  - 3" width - cut 11"
  - 4" width - cut 16"
- Fold the tube in on itself through the middle of the tube, like you're turning a sock inside out, so both cut ends are lined up. Make sure that it lays flat once it's done and isn't twisted on the inside.

*Tip: mark length on the box for easy cutting.*

- Pinch the cut edges together, and tie a **tight square knot** with ribbon about 1/2" from the top of the cut edge.
- Tip: use a clothespin or small, clear, hair elastic first, to hold the edges together while you tie the ribbon on.*
- Tie in a square knot for boys, or, a square knot, then a bow for little girls.
- Optional: tie a shank button on for embellishment.

- Now roll up the brim, and that's it! A cute, very stretchy, very adjustable little hat.
- For a little extra embellishment, glue on a ribbon rose, or a fun applique.
- We like to donate these in pairs, so that we can provide families with a hat for their baby and one to keep in a memory box. For your free, personalized cards, please email: [hats.angeloutfitters@gmail.com](mailto:hats.angeloutfitters@gmail.com)
